HOW TO RE-INK YOUR XSTAMPER®

Time Required: After re-inking wait 12 hours before using to allow ink to penetrate the Xstamper® system. If after this time copy is still too light, re-ink again.

1. Refill with the same color ink as your original stamp.
2. Because of the different models of Xstampers, there are several ways of re-inking. Follow the instructions and pictures for your particular stamp. Make sure ink is completely absorbed when applied to reservoir.
3. After inking, leave Xstamper® in an upright position to prevent leakage and to allow complete ink absorption.
   - Xstampers should only be used on paper.
   - Drying times vary depending on type of paper used.
   - If ink spills on hands during re-inking, wipe with rubbing alcohol and wash with soap and water.
   - To prevent stains, keep away from clothing.
   - Keep Xstamps out of the reach of children.

### INSTRUCTIONS

**N04, N05, N10, N11, N12, N13, N16, N24, One & Two-Color Title Stamp, Small Title Stamp**

Remove the handle and place drops of ink between the openings. N05 - 2 to 3 drops, N04, N10, N11, N12, N13, N16, Title Stamp & Small Title Stamp - 3 to 4 drops, N24 - 4 to 6 drops.

**N14, N18, N20, N22, N26, N27, N28, One & Two-Color Jumbo Stamp**

Slide rubber holder out of plastic guard. Place 2 drops of ink evenly into each channel.

**N06, N30, N32, N60, N62, Specialty Stamp**

Remove the handle and place drops of ink into the opening. N06, N30, N32, N60 & Specialty Stamp - 1 to 2 drops, N62 - 2 to 3 drops of ink.

**N40, N42**

Remove the title plate and place 2 to 3 drops of ink into the openings.

**N48, N49, N51, N53, N57, N59**

Remove the handle and place drops of ink into the opening. N48 - 2 to 3 drops, N51 - 3 to 4 drops, N49 - 4 to 5 drops, N53, N57 & N59 - 5 to 6 drops.

**N50, N54**

Remove handle from base and place 2 to 3 drops of ink into the opening.

**N70, N71, Spin ‘N Stamp™**

With bottom facing you, hold the dial tightly so it does not move and slide out the rubber stamp cartridge. Put about 3 to 4 drops of ink into the channel. To insert stamp cartridge, slide in cartridge along the rails until the cartridge clicks into place. Be sure to insert cartridge into holder starting with the double slots side first.

**N80, N81, N82, N83, Line Dater, VersADater®**

Remove Impression Frame™ or dater base. Cut off tip of ink cartridge about 1/4” from the end of nozzle. Insert tip of cartridge into either side of the Impression Frame and gently squeeze several drops along the openings. For the Line Dater, do not remove the screw as required in previous models. Insert cartridge into the hole above the date of the Line Dater and gently squeeze the entire cartridge into the reservoir hole.

**N75, N79, N85, N86, N89, XpeDater®**

Dater with Cap - Make sure the dater is in the lock position. Pull dater away from cap. Place drops of ink evenly onto the ink pad. N75 - 5 drops, N85 & N86 - 10 drops.

Dater with Base - Remove the dater from the Stamp Base. Place drops of ink evenly onto the ink pad. N75 - 10 drops, N79 & N89 - 50 drops, N85 - 20 drops.

**N90, N92, Die Plate Dater**

Remove dater from base and add 5 to 6 drops of ink around the outside, 1 to 2 drops of ink on the inside.

**N95**

Unscrew black plastic ring and place 3 to 4 drops of ink into the opening.

**N96, N98, Rotary Date & Time Stamp**

Pull plastic handle with plastic shield from base. To refill blue ink, place 6 drops of ink into plastic shaft. To refill red ink, squeeze 2 to 3 drops into each of 3 openings in the base.

**10-in-1 Phrase Stamp & Number Stamp**

Remove screw cap on lower right side of stamp. Cut off tip of ink cartridge about 1/4” from end of nozzle. Insert tip of cartridge into hole and gently squeeze all the ink into stamp. Replace screw cap and tighten.
